Independent Auditor's Report

Board of Directors
Interlocal Solid Waste Authority
of Giles, Franklin & Lincoln Counties, Tennessee

We have audited the accompanying basic financial statements of the Interlocal Solid Waste Authority of Giles, Franklin & Lincoln Counties, Tennessee as of and for the year ended June 30, 2008, as listed in the table of contents. These financial statements are the responsibility of the Interlocal Solid Waste Authority of Giles, Franklin & Lincoln Counties' management. Our responsibility is to express an opinion on these financial statements based on our audit.

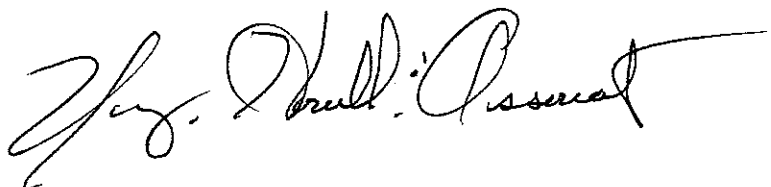

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Interlocal Solid Waste Authority of Giles, Franklin & Lincoln Counties, Tennessee as of June 30, 2008, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 27, 2009 on our consideration of the Interlocal Solid Waste Authority of Giles, Franklin & Lincoln Counties' internal control over financial reporting and our test of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Management's Discussion and Analysis on pages 2 - 3, is not a required part of the financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and do not express an opinion on it.

The accompanying supplemental schedules have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

January 27, 2009

MANAGEMENT DISCUSSION AND ANALYSIS

The following Management Discussion and Analysis (MD & A) of the Interlocal Solid Waste Authority activities and financial performance provides the reader with an introduction and overview to the financial statements of the Authority for the year ended June 30, 2008. This information should be considered within the context of the Accompanying financial statements and note disclosures.

FINANCIAL OPERATIONS HIGHLIGHTS

Net assets increased \$61,927 in 2008 as compared to \$81,809 in 2007. The Authority revenues increased from \$1,727,210 in 2007 to \$1,751,710 or 1% in 2008. The Authority has twelve (12) entities that are billed for disposal costs and fees on a monthly basis. All of the Authority's revenue comes from the administrative costs billed to these entities.

Operating expenses increased from \$1,653,008 in 2007 to \$1,695,198 in 2008, a 3% increase. The increase is due primarily to the related increased cost of waste disposal, otherwise operating expenses were consistent with those of the prior year.

OVERVIEW OF FINANCIAL STATEMENTS

MD & A introduces the Authority's basic financial statements. The basic financial statements include the balance sheet, statement of revenues, expenses and changes in net assets, the statement of cash flows and the notes to the financial statements.

The balance sheet reports all the Authority's assets and liabilities, with the difference being reported as net assets. Over time increases or decreases typically give some indication of whether the financial position of the Authority is improving or deteriorating. However, overall evaluation of the financial health of the Authority should include non-financial factors such as the physical condition of capital assets. The majority of the Authority's net assets are invested in capital assets (equipment). These assets are used to provide services to the entities, which are members of the Authority.

The statement of revenues, expenses, and changes in net assets reports all revenues and expenses for the year, regardless of whether cash has been received or paid. An important purpose of the statement is to show whether the Authority's revenues and operations are sufficient to support continued operations. The Authority showed positive earnings from the operations before depreciation and positive cash flow for each year.

The statement of cash flows converts the operations of the Authority to a cash basis and shows how those cash flows were spent during the year, for example, purchases of fixed assets.

CONDENSED FINANCIAL INFORMATION

A condensed summary of the Authority's financial position follows:

	<u>2008</u>	<u>2007</u>
Current Assets	\$ 594,822	513,399
Capital Assets, net of accumulated depreciation	5,943	4,735
Other Assets	<u>60,959</u>	<u>67,877</u>
Total Assets	\$ <u>661,724</u>	<u>586,011</u>
Current Liabilities	\$ <u>147,821</u>	<u>134,035</u>
Net Assets:		
Invested in capital assets	5,943	4,735
Unrestricted	<u>507,960</u>	<u>447,241</u>

Notes to Financial Statements

June 30, 2008

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Authority have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Authority's accounting policies are described below.

Organization and Operation

The Authority was originally formed by joint resolution of the counties of Giles, Franklin and Lincoln and the municipalities of Tullahoma and Fayetteville for the purpose of developing a solid waste regional plan, as required by TCA 68-211-801, titled "Solid Waste Management Act of 1991". The Authority's board was appointed by each participating County Executive or Mayor for varying terms of office. The Authority commenced operations in March of 1993 and has since inception, relied upon contractual agreements with third parties for landfill and solid waste disposal services. Also, since inception the municipalities of Shelbyville, Ardmore, Elkton, Petersburg, Pulaski and Minor Hill have been admitted as "participants".

Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Authority is accounted for as a "proprietary fund". Proprietary funds are accounted for on a flow of economic resources measurement focus. Under this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Proprietary fund-type operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in net total assets.

The Authority is subject to accounting directives issued by the Governmental Accounting Standards Board (GASB) and therefore has adopted the provisions of GASB pronouncements and all Financial Accounting Standards Board pronouncements issued through November 30, 1989 which do not conflict with GASB pronouncements. The Authority has chosen the option of not following Financial Accounting Standards Board (FASB) pronouncements issued subsequent to November 30, 1989.

The accrual basis of accounting is utilized by the Authority. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Accounts Receivable

Accounts receivable represent unpaid fees charged to user organizations for waste disposal services. An allowance for doubtful accounts receivable at June 30, 2008 was not deemed necessary by management due to the current status of all accounts.

Cash

Cash includes amounts in demand accounts. Cash in excess of current requirements is held in interest-bearing money-market demand accounts.

**INTERLOCAL SOLID WASTE AUTHORITY
OF GILES, FRANKLIN & LINCOLN COUNTIES, TENNESSEE**

Notes to Financial Statements

June 30, 2008

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (CONTINUED)

Capital Assets

Expenditures for machinery and equipment and other intangible assets expected to provide economic benefits to the Authority are capitalized and depreciated over their useful lives, ranging from 5-10 years, using the straight-line method.

Contract Negotiation Costs

Significant legal fees were incurred in negotiating the current contract to provide transportation and disposal services for the Authority's solid waste. Such costs are presented as other assets and amortized over the 10 year term of the contract using the straight - line method.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(2) CASH DEPOSITS

During 2008, the Authority invested in interest bearing checking accounts, and savings accounts.

Custodial credit risk for deposits is the risk that in the event of a bank failure, the Authority's deposits may not be returned or the Authority will not be able to recover collateral securities in the possession of an outside party. The Authority's policy requires that deposits be either (i) secured and collateralized by the institutions at 105% of the value of the deposits placed in the institution, less the amount protected by federal depository insurance or (ii) that deposits be placed in financial institutions that participate in the bank collateral pool administered by the Treasurer of the State of Tennessee. Institutions participating in the collateral pool determine the aggregate balance of their public deposits must be at least 105% of the average daily balance of public deposits held. Investments with the Tennessee Local Government Investment Pool are not categorized as to custodial credit risk. Cash was fully collateralized at June, 30, 2008

(3) UTILITY PLANT AND EQUIPMENT

A summary of changes in Utility Plant in Service is as follows:

	Balance <u>Beginning</u>	<u>Additions</u>	<u>Retirements</u>	Balance <u>Ending</u>
Office equipment	\$ 24,983	<u>2,495</u>	<u>-</u>	27,478
Less accumulated depreciation	<u>(20,248)</u>			<u>(21,535)</u>
	<u>\$ 4,735</u>			<u>5,943</u>

Depreciation expense was \$1,287 and \$1,516 for the year ended June 30, 2008 and 2007, respectively.

**INTERLOCAL SOLID WASTE AUTHORITY
OF GILES, FRANKLIN & LINCOLN COUNTIES, TENNESSEE**

Notes to Financial Statements

June 30, 2008

(4) CONTRACT NEGOTIATION COSTS

The Authority incurred legal costs relative to contract negotiations for its waste disposal services. The related costs were capitalized and are being amortized over the term of the related contract. Amortization expense amounted to \$6,919 for 2008.

(5) WASTE DISPOSAL CONTRACT

The Authority contracted with Browning Farris Industries (BFI) for waste disposal services in the three county area of Giles, Franklin and Lincoln Counties. The contract has a term of ten years commencing April 1, 2005. The contract specifies, among other things, that rates will be adjusted annually by the percentage increase of the Gross National Product Fixed Weight Price Index and that such rates may be increased by certain additional taxes and regulatory changes as set forth in the contract. Contractor will charge the sum of \$25 per ton, as adjusted in accordance with applicable sections of the contract.

(6) RISK MANAGEMENT

The Authority is exposed to various risks for general liability and property and casualty losses. The Authority feels that it is more economically feasible to join a public entity risk pool established by the Tennessee Municipal League, an association of member governments. The Authority pays an annual premium to the TML for its general liability and property and casualty insurance coverage. The creation of the pool provides for it to be self-sustaining through member premiums. The pool reinsures through commercial insurance companies for claims in excess of \$130,000 for each insured event. Settled claims for losses have not exceeded coverage in any of the past three years.

(7) OPERATING LEASE

The Authority had entered into an agreement with the State of Tennessee for the use of land for a transfer site. The lease, which required annual rental payments of \$1,400, expired in 2007 and was being negotiated at the date of this report.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF THE FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Directors
Interlocal Solid Waste Authority
of Giles, Franklin & Lincoln Counties, Tennessee

We have audited the financial statements of the Interlocal Solid Waste Authority of Giles, Franklin & Lincoln Counties, Tennessee (the Authority), as of and for the year ended June 30, 2008, and have issued our report thereon dated January 27, 2009. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Authority's internal control over financial reporting as a basis for designing auditing procedures for the purpose of expressing our opinion on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the Authority's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the Authority's financial statements that is more than inconsequential will be prevented or detected by the Authority's internal control.

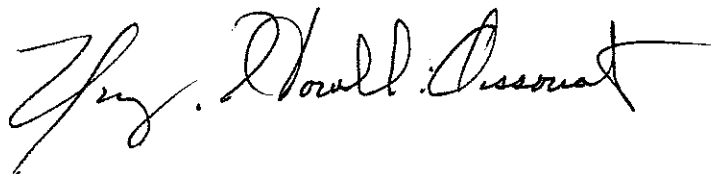

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Authority's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the State Comptroller's Office, management, state and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

January 27, 2009
